

DIGITAL CONTENT CURATION

GET YOUR STUDENTS INVOLVED !

Digital content curation is not just a strategy used by teachers and librarians. Explicitly teaching students the processes involved in digital content curation will enable them to develop information and digital literacies that will prepare them for future learning in any area.

It is never too early (or late!) to begin getting on top of information overload.

GET TO KNOW THE PROCESS...

HERE'S WHAT THE STUDENTS WILL LEARN

FIND

- * Keywords
- * Advanced search operators
- * Boolean Logic
- * Advanced Google searching
- * Searching Databases and Social Media
- * RSS Feeds & Alerts

SELECT

- * CRAP Detection
- * Validity & Verification
- * Skimming & Scanning
- * Understanding the URL
- * Reverse image searching

EDITORIALISE

- * The art of the summary
- * Who is your audience
- * Making connections between sources

CREATE

- * Copyright & Creative Commons
- * Content curation tools for publication
- * Visual design

SHARE

- * Open Education resources
- * Referencing and acknowledging others' work
- * Places to publish
